Current Location: Bengaluru

Hometown: Meerut, UP

Education

Post Graduate Certificate in Big Data Analytics (DBDA) (Pursuing)

- Centre for Development of Advanced Computing (C-DAC), Bengaluru | 2026

B.Tech in CSE (Data Science)

- Ajay Kumar Garg Engineering College, Ghaziabad | 2025
- CGPA: 7.37

Technical Skills

- **Programming Languages:** Python, SQL
- **Data Analytics & Visualization:** Power BI, Excel, Pandas, NumPy, Matplotlib, Seaborn
- **Data Analysis Skills:** Data Cleaning, Business Insights, Data Visualization
- **Web Technologies:** HTML, CSS, React.js, WordPress
- **Database & Tools:** MySQL, GitHub

COURSES & CERTIFICATIONS

- **Data Analytics:** Self-learning and hands-on project practice (Python, Power BI, SQL)
- **Python:** Basics (HackerRank)
- **Problem Solving:** HackerRank challenges

Volunteering & Participation

- **Volunteered at the International Conference on Advanced Computing & Emerging Technologies (AKGEC).**
- **Completed professional development workshops conducted by the VE Cell at (AKGEC) focused on technical and career development skills.**

EXPERIENCE/Internship

Web Developer - Lumen Cloud (July 2025 - Jan 2026)

- Developed responsive front-end interfaces using HTML, CSS, JavaScript, and React.js.
- Built UI components to improve user experience and responsiveness.

IT Intern - Delhi Metro Rail Corporation (DMRC)

- Supported development and testing of the LEAP chatbot using Rasa.
- Worked with MySQL for employee leave data handling and queries.

PROJECTS

Sales Data Analysis | Python, Power BI, SQL

- Cleaned and transformed 10k+ rows of sales data using Pandas (handled nulls, duplicates, outliers).
- Performed EDA to identify top-selling products, seasonal demand, and customer segments.
- Built Power BI dashboards visualizing revenue, profit margin, and monthly sales KPIs.
- Delivered insights for improving target marketing strategies.

GDP Prediction of Indian States | Python (RNN), Power BI

- Analyzed 12 socio-economic indicators (crime rate, literacy, healthcare, agriculture, etc.).
- Built an RNN model to forecast GDP trends and compare state performance.
- Designed interactive Power BI dashboards for decision-oriented visualization.
- Identified growth patterns and factors behind high/low performing states.

LEAP Chatbot Automation - DMRC | Python, MySQL

- Assisted in data preparation and structuring employee leave datasets.
- Analyzed leave patterns and query types to support workflow automation.
- Improved response accuracy by refining data logic and testing in Python.
